The walls of Espacio Gallery are going blue!

A dozen artists, all colourists in their own way, have searched their souls for what makes them 'Blue', as well as exploring the traditions, symbolism and meanings of the colour. And each has approached the subject in their highly personal and unique way.

"This is the third year Espacio has devoted an exhibition purely to colour. This time, we decided to challenge the artists by restricting the subject to 'BLUES'. This does not mean the art will be exclusively one colour. It opens up limitless possibilities and we are sure this is going to be a very exciting exhibition". Sally Grumbridge, co-curator.

Come and share with us in a celebration of Blueness!
