### **Bev Sage**

I'm a London-based artist working with print, performance, and sound. Beautiful World Exhibition ponders the natural world in this time of climate crisis. As an artist, I wanted to focus on the interdependence of living, breathing matter from the micro - our cells, to the macro - and the impact individuals have on our urban landscapes. Healing together, there's hope we can be the change that makes this fragile planet, our world, beautiful once again.
