Live performances Thursday 9th May, from 7pm.

ABOUT THE SHOW

Human IEU brings together eleven artists working in a variety of mediums in a group show - FLUID. The work they've created in response to this theme challenges, provokes and dynamically engages the viewer in a collection that incorporates drawing, painting, video, sculpture, photography and performance.

While to some the word FLUID may conjure up the gender fluidity emerging in today's culture, to others FLUID suggests a method of working or a medium in which to work.

Remembering that the human body is 60% water, we're asking the viewer to think about the importance of fluid to the human experience.

THE ARTISTS

Jonathan Armour, Susie Breen, Brian Dennis, Samuel Douek, Stuart Howitt, Brother Kwan, Graeme Messer, Georg Meyer-Wiel, Sheila Wallis, Mathias Vef, Ali Zaidi

A WORD FROM THE CURATORS

'It has been both challenging and stimulating to work with such a diverse group of artists, and we are excited to share this unusual amalgam of styles and approaches'.
