GERMINATION May 19th-31st 2015

Espacio's 3rd year on the Chelsea Fringe trail, this year's exhibition presents the diverse work of 18 artists - reflecting their interest in and observations of aspects of the natural world .

From Renee Rilexie's dark-room installation expressing the symbolism of the Tree of Life, to a screen printed gun-toting fox by Harry Bunce, to the traditional pencil studies of unfurling ferns or cut-map collages of Tania Beaumont – this exhibition has selected wonderfully diverse works from all over the UK.

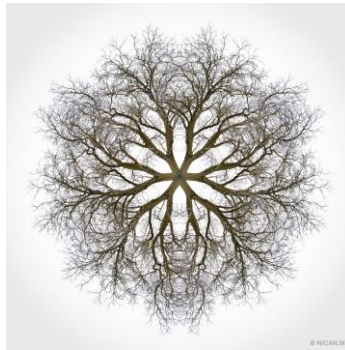

The show will be open daily 1-7pm, last day until 5pm, with the Private View on Thursday 21st May 6-9pm.

Images of works (Jpeg) are available on request from taniabeaumont@gmail.com
