URBAN ANGLES

The ever-changing spirit of the city

25 Jul – 6 Aug 2013

In this striking exhibition thirteen contemporary artists present their distinctive responses to the urban environment. Images of structure, geometry, reflection, shadow, intrigue and transience feature in a show which explores many pathways. Print, painting, illustration, graphics, photography and sculpture are brought together in a vivid array.

Many of the featured artists will be available at the gallery each day to talk about their work and the Espacio group.
