Roots & Rifts is an exciting art exhibition that brings together a unique group of artists from a variety of nationalities and diverse cultural backgrounds. The show reflects the multiple experiences that living abroad can bring, such as the learning to adapt to different contexts and the need to question identity issues, as well as the particular inner journeys that each artist is forever following.

Thoughts, feelings, memories and observations are explored by the group through their art, and the categories of work include painting, photography, sculpture, installation, traditional and digital design, and mixed media.
